BIBLIOGRAPHY

The following list of books and articles is intended to provide a general guide to the literature on the history of the United States. It is not intended to be a comprehensive list, but rather a selection of the most important works in the field.

The first section of the bibliography is devoted to the history of the United States as a whole. This section includes works on the early history of the country, the American Revolution, the early republic, and the Civil War. The second section is devoted to the history of the individual states. This section includes works on the history of each of the fifty states, as well as on the history of the District of Columbia. The third section is devoted to the history of the United States as a nation. This section includes works on the history of the United States as a nation, as well as on the history of the United States as a nation.

The following list of books and articles is intended to provide a general guide to the literature on the history of the United States. It is not intended to be a comprehensive list, but rather a selection of the most important works in the field.
